

NOTICE TO RESIDENTS OF LAKEFIELD

In order to sustain water quality in the water distribution system, the Peterborough Utilities Services once again intends to perform routine flushing of water mains throughout Lakefield.

The flushing will be conducted generally between Monday April 10, 2017 to Wednesday, May 31, 2017 during anytime of the day or night.

If you should notice iron coloured water, please let your cold water tap closest to the source run for 20-30 minutes or until the water clears. If this does not resolve the water problem, please direct your questions and concerns to:

Peterborough Utilities Services
Water Department
(705) 748-9301 ext. 1295
