Overview

The PTBO H₂O water station can provide municipal tap water at your summer event. The accessible mobile station has 8 water fountains and 8 water bottle refill station. Event patrons can have drink or fill up their bottles with refreshing cold tap water.

Since 1914 Peterborough Utilities has been providing safe, reliable, cost-effective production and delivery of consistently high-quality water – from source to your home’s tap! And now, get the same water on the go! Take your water bottle with you and fill up at the PTBO H₂O Mobile Drinking Water Station at outdoor community events throughout the city in the summer months.

The PTBO H₂O Mobile Drinking Water Station serve as a fun and practical way to educate people about one of our most valuable resources — drinking water.

The water for the City of Peterborough meets or exceeds the government’s requirements for water testing. Our staff conduct more than 20,000 tests a year to ensure your drinking water is of the highest quality – more tests than government regulations require. We conduct tests annually, quarterly, weekly and there are even some that run continuously. We perform on-going facility maintenance, and constantly upgrade and improve our water infrastructure including Peterborough’s water treatment plant. The water used in the PTBO H₂O Mobile Drinking Water Station will be the same great water.

Booking

Events with an interested in booking the PTBO H₂O Mobile Drinking Water Station are asked to submit their requests 3 weeks in advance of the date of the event. Requests submitted less than 3 weeks prior to the event will be considered on a case-by-case basis.

To submit your request, please ensure:

- The event is held between the months of May through August. Beyond this time window, due to staffing, applications will be considered on a case-by-case basis.
- The event is open to the public, and a minimum attendance of 100 people is expected

PTBO H₂O Mobile Drinking Water Station
